Abstract of the Disclosure

Provided is a gas generating composition having a low combustion temperature and having a low produced amount of toxic carbonmonoxide, ammoniaandnitrogenoxidesatthetimeofcombustion. The gas generating composition includes the following components (a), (b) and (c) andoptionallythe component (d) and/or the component (e): (a) an organic compound as fuel; (b) an oxygen-containing oxidizing agent; (c) aluminum hydroxide; (d) a binder; and (e) an additive selected from metal oxides and metal carbide.
